

Using Remind

Remind is an app that is used by the Leadership Team and Mary Jo to communicate with Youth Ministry teens and their parents. It will be used during the 2016-2017 school year to send out reminders about events and permission slip due dates. They will be issued on a regular basis, but are only sent on a necessary basis. Anyone who opts in to receive reminders can opt out at any time.

The Remind app can be used in four different ways:

1. You can receive reminders by text. To opt in, text **@stcolette** to 81010.
2. You can receive reminders by push notifications. To opt in, use your phone browser to visit the Remind website (**rmd.at/stcolette**) and follow the instructions for getting push notifications.
3. You can receive reminders by email. To opt in, visit (**rmd.at/stcolette**) and follow the instructions for getting email reminders.
4. You can use the Remind App if you have an Android or Apple smartphone. To opt in, download the app (**Remind101**), search for our group (**St. Colette Youth Group**), and follow the directions to sign up.

The Remind app is safe and easy to use. Your cell number and/or email address are accessible only to the Youth Ministry Office and we will never share your info without your permission.

If you have any problems signing up with the four methods listed above, we can help! Ask for help at a Monday night meeting or email us at scymremind@gmail.com.

This year's Remind administrators are Mary Kate and Erik from the Teen Leadership Team and Mary Jo and Aleta from the Youth Ministry Office.
